About This Manual

This manual was created to guide the usage of standard reports in the Children’s Registry and Information System (CHRIS) program. It includes instructions and step-by-step examples for creating standard reports.

For additional information on the CHRIS Project, refer to the *User Manual, Data Facilitator Manual* and *Field Reference Guide*. All support documentation can be retrieved from the CHRIS website at [www.chris.miami.edu](http://www.chris.miami.edu).

This document was developed by the University of Miami, Department of Psychology, through CHRIS, a special project funded by the Florida Department of Education, Division of Public Schools, Bureau of Exceptional Education and Student Services (BEESS), through federal assistance under the Individuals with Disabilities Education Act (IDEA), Part B.
### Legend

The following is a list of conventions used throughout this manual:

<table>
<thead>
<tr>
<th><strong>Bold</strong></th>
<th>The titles of CHRIS screens and screen sections are presented in bold-faced type.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Italics</strong></td>
<td>Field names, as well as references to tables, figures, and hands-on exercises, are presented in italics.</td>
</tr>
<tr>
<td><strong>UPPERCASE</strong></td>
<td>CHRIS buttons and main menu options are presented in UPPERCASE letters.</td>
</tr>
<tr>
<td><strong>Title Case</strong></td>
<td>CHRIS-related reports, event names, functions, and lists (e.g., Duplicate Child Report, Service Coordination, Child Record Locator, Code List) are presented in Title Case.</td>
</tr>
</tbody>
</table>

*The IMPORTANT icon is used in the left margin to highlight information essential to the integrity and/or performance of CHRIS Gold.*

*The NOTE icon is used in the left margin to highlight information that deserves special attention.*

The CHRIS software program contains a variety of standard report templates to assist users in creating commonly used reports. In addition, all reports can be accessed from the Reports screen. To access the reporting features in the CHRIS program, click the REPORTS button from the CHRIS main menu (see Figure 1).

**FIGURE 1** Record Locator Screen

Enter your desired search criteria below, then click "Search".

+ Advanced Search Options
Clicking the REPORTS button on the main menu will display the **Reports** screen (see Figure 2). The **Reports** screen displays all of the report options for the CHRIS program.

**FIGURE 2** Reports Screen

![Reports Screen](image)

Available Reports

- Search reports...
- 60 Day Rule Report
- Days Elapsed between Screening and Parent Consent
- FDLPS Gulfcoast Pinellas Reports
- SOD Completed Screening Report
- SOD Referral for Evaluation Report
- SOD Referral Report
- Standard Reports

**Using the Reports Screen**

Options labeled with the [icon indicate a direct link to the named report where a user can enter find criteria and sort orders to perform a find (see Figure 2).

Options labeled with the + icon indicate a folder that will expand to display the report layouts contained within (see Figure 3).

**FIGURE 3** Expanded Folder Options

![Expanded Folder Options](image)

Available Reports

- Search reports...
- 60 Day Rule Report
- Days Elapsed between Screening and Parent Consent
- FDLPS Gulfcoast Pinellas Reports
- Transition Report
**Available Reports**

The following reports are available:

- **“CURRENT USER’S SITE” REPORTS** – Contains custom reports created by the Help Desk for the current user’s site.

- **STANDARD REPORTS** – Contains standard reports.

- **60-DAY RULE REPORT** – Contains a report of days elapsed from Parent Consent for Evaluation to Evaluation Completion Date. Includes average number of days and can be displayed graphically and/or in a list.

- **DAYS ELAPSED BETWEEN SCREENING AND PARENT CONSENT** – Contains a report of days elapsed from Screening to Parent Consent for Evaluation. Includes average number of days and can be displayed graphically and/or in a list.

- **SOD COMPLETED SCREENINGS REPORT** – Displays the number of completed screenings within a chosen date range. This report breaks down the results by individual county (if applicable).

- **SOD REFERRAL FOR EVALUATION REPORT** – Displays the number of evaluation referrals within a chosen date range. This report breaks down the results by individual county (if applicable).

- **SOD REFERRAL REPORT** – (Schedule of Deliverables Referral Report) Displays the number of Referral First Contacts or Referral Ins within a chosen date range. This report breaks down the results by individual county (if applicable).
Standard Reports
Expanding the STANDARD REPORTS option will display the standard reports available to all CHRIS users (see Figure 5). Click the button to select the desired report.

**Figure 5** Standard Reports Options

- 5 Y/O Active Report
- Action Needed Report
- Action Needed Report With Event Info
- Address Labels
- Appointment Schedule
- Child Outcomes Form Excel Report
- Children's List
- Code Summary
- Early Steps Referral Follow-up Report
- End Timeline/Inactive Reason Report
- ESE Staffing Report
- Event Count By Age Range (Year)
- Event Count By Age Range (Year/Month)
- IEP/IFSP Report
- Inactive Report
- % Increase of Transitions (indicator 12)
- Master Timeline Reason/Close/Total Report
- Presenting Problem Report
- Referral Report (First Contact and In)
- Screening Appointment Report
- Screening Labels
- Screening Results Report
- Screening Schedule Report
- Screening_Evaluation Report
- Speech/Language Evaluation Report
- Timeline Status Summary Data (Brief) (Year)
- Timeline Status Summary Data (Brief) (Yr & Mnth)
- Timeline Status Summary Data (Detailed)
- Timelines Report
- Tracking Status of Referral for Screening
- Verification Activity for Indicator 12

For more information regarding the Screening_Evaluation Report, please access the “Screening_Evaluation Report Training Video” link on chris.miami.edu by navigating to the Training tab and then selecting the “Reports” section.
Find Criteria Screen

Selecting any of the Standard Reports or site-specific reports from the Reports screen (see Figure 2) will display the Find Criteria screen (see Figure 6). The Find Criteria screen is used to enter the find criteria used to create standard and site-specific reports for the CHRIS database.

**FIGURE 6  Find Criteria Screen**

![Find Criteria Screen Diagram]
Each section of the **Find Criteria** screen allows users to enter search criteria that will be used to find data related to the desired report.

**FIGURE 7** 1st Row Find Criteria Screen Section

The first row of the **Find Criteria** screen will only allow the most appropriate table to be selected for the desired report (see Figure 7).

**FIGURE 8** CHRIS Available Tables

There are five tables available in CHRIS (see Figure 8). If either Timeline or Service Coordination is selected as the table, the **Event** field will automatically display a list of the events pertaining to the table chosen (see Figure 9). The appropriate event should be selected from the drop-down list. If Demo, Action Needed, or Addresses is selected as the table, the **Event** field is bypassed (see Figure 10). All required fields in the first row will be outlined in red until the appropriate data have been entered (see Figures 9 & 10).

**FIGURE 9** Event Drop-Down

**FIGURE 10** Event Drop-Down Bypassed
Once a table and an event (if necessary) are chosen, a list of fields unique to the selected table and event selected will automatically be displayed (see Figure 11). The appropriate field should be selected from the drop-down list.

**FIGURE 11** Find Criteria Screen Field Dropdown

The find criteria are entered into the *Value* field (see Figure 12). For example, a date range would be entered as 01/01/2024...03/31/2024.

**FIGURE 12** Find Criteria Screen Value Field

**FIGURE 13** Reports Find Options

The *GO BACK* arrow at the top left of the *Find Criteria* screen (see Figure 6) cancels the find and returns the user to the *Reports* screen (see Figure 2).
The **Find Criteria** screen (see Figure 6) contains the following options for performing complex finds (see Figure 13):

- **OR** – Includes records that meet the criteria from that section, regardless of the criteria specified in other sections.

- **OMIT** – Omits a set of records from the find results. The OMIT button should be used in the last section of the **Reports Find** screen.

- **SORT CRITERIA** – Provides options for sorting the data in the report. Select the option associated with the desired sort option.

When find criteria are entered in more than one section, the find functions as an “And” find (results will contain only those records that meet all the criteria specified in all the sections), unless the OR or OMIT option is selected.

**Find Criteria Screen Output Functions**

The **Find Criteria** screen (see Figure 6) has three output options represented by three buttons at the top of the screen and the same three buttons at the bottom of the screen. **GENERATE REPORT**, **GENERATE COUNT** and **EMAIL REPORT**. Once the user has entered their desired find criteria, they need to select one of these three options to view the found set:

- **GENERATE REPORT** – Creates a PDF file of the report layout chosen using the found set generated by the chosen find criteria. This PDF file is automatically downloaded into the CHRIS user’s Download Folder.

- **GENERATE COUNT** – Displays the total number of records found using the chosen find criteria. The find criteria will remain after the count has been generated so that individual fields can be changed and a new count can be generated without re-entering all the find criteria.

- **EMAIL REPORT LINK** – Emails a link to a downloadable PDF file of the report to the current user’s email address. To protect confidentiality, this link will expire after 24 hours.

*If a necessary sort order is missing from the Sort Criteria drop-down list, please contact the Help Desk so that a new item can be added to the program and appear on the list for all users.*
Performing Accurate Finds

Performing an accurate find is very important because the find provides the information on which reports will be based. Incorrect finds will produce inaccurate results. The following tips will assist users in performing accurate finds:

1. Know what specific data are required to create the desired report.

2. Be specific when performing finds. Given the number of records in the statewide database, it helps to be specific when performing finds. Enter date ranges, ID numbers, database numbers, or special terms to narrow the find criteria and return the data desired.

3. Limit the use of excessive search criteria. The **Find Criteria** screen allows users to enter search criteria in up to four separate find sections. However, using numerous search criteria in a single report can cause inaccurate results. If you need to perform complicated finds to develop your report, contact the Help Desk for assistance.

Reports and forms that are emailed or downloaded from CHRIS can contain confidential data. Downloaded or emailed files should be given the same consideration as confidential paperwork, file folders, and other materials containing personal information. The user’s Download Folder should be periodically purged of confidential files.
Find Operators

Use the find operators below to improve the search criteria for records (see Table 1).

## TABLE 1  Find Operators Table

<table>
<thead>
<tr>
<th>To find values that:</th>
<th>Use this operator:</th>
<th>Example:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Are less than the value of the item</td>
<td>&lt;</td>
<td>&lt;40 or &lt;09/09/1998</td>
</tr>
<tr>
<td>Are less than or equal to the value of the item</td>
<td>&lt;=</td>
<td>&lt;=50</td>
</tr>
<tr>
<td>Are greater than the value of the item</td>
<td>&gt;</td>
<td>&gt;10/10/1998</td>
</tr>
<tr>
<td>Are greater than or equal to the value of the item</td>
<td>&gt;=</td>
<td>&gt;=10</td>
</tr>
<tr>
<td>Have some or all of a field’s contents</td>
<td>=</td>
<td>=Ann (finds Ann or Ann Marie but not Annie)</td>
</tr>
<tr>
<td>Are an exact match of the field’s contents</td>
<td>==</td>
<td>==Anne (finds Anne but not Ann Marie or Annie)</td>
</tr>
<tr>
<td>Are within the range specified</td>
<td>...</td>
<td>12:30...17:30</td>
</tr>
<tr>
<td>Are duplicated values</td>
<td>!</td>
<td>!Ann (finds Ann or Annie or Annette)</td>
</tr>
<tr>
<td>Include today’s date</td>
<td>//</td>
<td>//</td>
</tr>
<tr>
<td>Have invalid dates or times</td>
<td>?</td>
<td>?</td>
</tr>
<tr>
<td>Have any one character</td>
<td>@</td>
<td>@</td>
</tr>
<tr>
<td>Have any one digit</td>
<td>#</td>
<td>#</td>
</tr>
<tr>
<td>Have zero or more unknown or variable text characters</td>
<td>*</td>
<td><em>Anne</em> (finds Anne or Annette or Brianne)</td>
</tr>
<tr>
<td>Escape next character</td>
<td>\</td>
<td>\e</td>
</tr>
<tr>
<td>Include literal text (including spaces and punctuation) in a field (text exactly as it appears, but regardless of uppercase or lowercase)</td>
<td>“““</td>
<td>“Jean-Louis”</td>
</tr>
<tr>
<td>Match phrase from anywhere (not only word start)</td>
<td>*“““</td>
<td>“Louis”</td>
</tr>
<tr>
<td>Have empty fields</td>
<td>=</td>
<td>=</td>
</tr>
</tbody>
</table>
Standard Report Examples

Standard reports are pre-formatted reports that can be based on Demographic, Timeline, Service Coordination, Address and/or Action Needed data.

Demographic Reports

To run a Demographic Report, first select a demographic based Standard Report layout, (see Figure 5) then enter the appropriate find criteria. In this example, only demographic data are selected (see Figure 14).

The following data are entered for the first section of the Find Criteria screen:

Table: Demo  
Event: (bypassed when Demo table is selected)  
Field: DOB  
Value: 01/15/2021...03/15/2021

**Figure 14** Find Criteria Screen with Demographic Find

In this example, the found set of records will include children born between January 15, 2021 and March 15, 2021.

Before performing the find, select the sort criteria (see Figure 13).
The demographic reporting options include the following:

- CHILDREN’S LIST – Generates a list of children’s records.

- ADDRESS LABELS – Generates address labels for the records selected.

- CODE SUMMARY – Generates a summary of the values contained in the Code Definitions List. Each site can use the Code field in whatever way is most beneficial to that site and the data facilitator can update this list.

- Early Steps REFERRAL FOLLOW-UP REPORT – Generates a follow-up report of Early Steps referrals.

**NOTE**

*Complex Demographic Reports can be run multiple find criteria. See the Complex Reports section of this manual.*

---

**Exercise 1: Running a Demographic Report**

1. Select the **REPORTS** option from the main menu.
2. Click the **STANDARD REPORTS** button.
3. Select the **CHILDREN’S LIST** option.
4. Select **DEMO** from the Table drop-down list.
5. Select the **DOB** field from the Field drop-down list.
6. Enter the following information in the Value field:
   
   **DOB:** 6/2021

7. Select the **Child_Name** option from the Sort Criteria drop-down.
8. Select the **GENERATE REPORT** option.
9. Open the Downloads folder to view the report.
Basic Reports

To run a Basic Report using a single table, select a report and the table, an event (if necessary), a field, and a value. In this example the Referral Report and the Referral In Service Coordination event is selected (see Figure 15).

The following data are entered for the first section of the Find Criteria screen:

- **Table**: ServiceCoordination
- **Event**: ReferralIn
- **Field**: ReferralInDate
- **Value**: 1/2024...2/2024

**FIGURE 15** Find Criteria Screen with Basic Find

In this example, the found set of records will include children with a Referral In Date during the months of January and February 2024.

Before performing the find, select the sort criteria (see Figure 13).
Exercise 2: Running a Basic Report

1. Select the REPORTS option from the main menu.
2. Choose the STANDARD REPORTS option.
3. Select the APPOINTMENT SCHEDULE option.
4. Select the SERVICE COORDINATION option.
5. Select APPOINTMENTS from the event drop-down list.
6. Select ApptDate from the field drop-down list.
7. Enter the following information:
   Appt Date: 6/2024…8/2024
8. Select the ApptDate_Time Sort Criteria option.
9. Select the GENERATE REPORT option.
10. Open the Downloads folder to view the report.
11. Scroll to the bottom to make a note of the number of records found.
Complex Reports

Complex reports are based on multiple tables. The Find Criteria screen allows users to enter search criteria in up to four separate find sections. In this example, both the Part C to Part B Transition (Timeline) and Referral First Contact (Service Coordination) events are selected (see Figure 16).

The following data are entered for the first section of the Find Criteria screen:

- **Table**: Timeline
- **Event**: Transition
- **Field**: TrnTransitionMeetingDate
- **Value**: 4/2024

The following data are entered for the second section of the Find Criteria screen:

- **Table**: ServiceCoordination
- **Event**: ReferralFirstContact
- **Field**: ReferralFirstContactDate
- **Value**: 4/2024

The *Table* field allows users to select the source of data needed. For the second through fourth sections, select the table using the *Table* drop-down list (see Figures 8 & 16).

**FIGURE 16**  Find Criteria Screen with Complex Find

In this example, the found set of records will include children who had both a Transition Meeting Date and a Referral First Contact Date in April, 2024.

Before performing the find, select the sort criteria (see Figure 13).
Reports with an Or Find

The Or option is used to include records that meet the criteria from a section of the Find Criteria screen regardless of the criteria specified in any other sections. In this example, a find is performed on the Referral First Contact event, and then that found set is expanded by adding records with a Referral In event (see Figure 17).

The following data are entered for the first section of the Find Criteria screen:

- **Table**: ServiceCoordination
- **Event**: ReferralFirstContact
- **Field**: ReferralFirstContactDate
- **Value**: 4/2024

The following data are entered for the second section of the Find Criteria screen:

- **Table**: ServiceCoordination
- **Event**: ReferralIn
- **Field**: ReferralInDate
- **Value**: 4/2024
- **Option**: Or

**FIGURE 17** Find Criteria Screen with Or Find

In this example, the found set of records will include children who had either a Referral First Contact Date or a Referral In Date in April, 2024.

Before performing the find, select the sort criteria (see Figure 13).
Reports with an Omit Request

The Omit option is used to exclude information from a find. In this example, a find is performed on demographic data, and then that found set is narrowed by eliminating any records that contain an open timeline (see Figure 18).

The following data are entered for the first section of the Find Criteria screen:

- **Table**: Demo
- **Event**: (bypassed when Demo table is selected)
- **Field**: DOB
- **Value**: 1/2021

The following data are entered for the second section of the Find Criteria screen:

- **Table**: Timeline
- **Event**: EndTimeline
- **Field**: EndDate
- **Value**: = (finds all records with an empty EndDate field)
- **Option**: Omit

**Figure 18** Find Criteria Screen with Omit Request

![Find Criteria Screen with Omit Request](image)

In this example, the found set of records will contain data from the first section of the Find Criteria screen and omit the data from the second section of the Find Criteria screen. In this example, the find would result in a list of children born in January 2021 with a completed Timeline.

Before performing the find, select the sort criteria (see Figure 13).
Exercise 3: Running a Complex Report

1. Select the REPORTS option from the main menu.
2. Click the STANDARD REPORTS button.
3. Select the IEP/IFSP Report option.
4. Select Timeline from the Table drop-down list.
5. Select End Timeline from the event drop-down list.
6. Select EndDate from the field drop-down list.
7. Type the following information:
   
   **EndDate:** 1/2024

8. Select SERVICE COORDINATION from the Table drop-down list in the next section.
9. Select Referral Inactive from the event drop-down list.
10. Select ReferralInactiveDate from the field drop-down list.
11. Type the following information:
    
    **Referral Inactive:** 1/2024

12. Click the OR button.
13. Select ChildName from the Sort Criteria drop-down list.
14. Select the GENERATE REPORT option.
15. Open the Downloads folder to view the report.
16. Scroll to the bottom to make a note of the number of records found.
Action Needed Report

The Action Needed Report contains information that can be used for creating daily or weekly reports to assist in developing task lists for individual case managers or for Child Find team activities. To run an Action Needed Report, first expand the STANDARD REPORTS option from the Reports screen, select the ACTION NEEDED REPORT option and then select the appropriate find criteria (see Figure 19).

The following data are entered for the first section of the Find Criteria screen:

- **Table**: ActionNeeded
- **Event**: (bypassed when ActionNeeded table is selected)
- **Field**: ANFollowUpDate
- **Value**: 1/2024

The following data are entered for the second section of the Find Criteria screen:

- **Table**: ActionNeeded
- **Event**: (bypassed when ActionNeeded table is selected)
- **Field**: ANCompletedDate
- **Value**: =

**Figure 19** Find Criteria Screen Action Needed Find

![Find Criteria Screen Action Needed Find](image)

In this example, the found set of records would include children who had an Action Needed Follow Up Date during the month of January 2024 and did not have an Action Needed Completed Date.

Before performing the find, select the sort criteria (see Figure 13).
Exercise 4: Running an Action Needed Report

1. Select the REPORTS option from the main menu.
2. Click the STANDARD REPORTS button.
3. Select the ACTION NEEDED option.
4. Select ACTION NEEDED from the Table drop-down list.
5. Select ANFollowUpDate from the field drop-down list.
6. Enter the following information:  
   ANFollowUpDate: 2/2024
7. In the second row, select ACTION NEEDED from the Table drop-down list.
8. Select ANCompletedDate from the Table drop-down list.
9. Enter the following information:  
   ANCompletedDate: =
10. Select ChildName from the Sort Criteria drop-down list.
11. Select the GENERATE REPORT option.
12. Open the Downloads folder to view the report.
13. Scroll to the bottom to make a note of the number of records found.
Site Reports

Site Reports provide a summary of Child Find activities by month and year for the three previous school years. Reports can be generated by center, county, or site.

Two types of reports can be generated: Workload and Unduplicated. The Workload Report is based on a set of seven events and counts the total number of those events. The Unduplicated Report is based on six events and counts the total number of children served. For instance, if a child has two Screening events, the child would count only once in the Unduplicated Report, but both Screening events would be counted in the Workload Report.

Due to the complexity of these reports, only the CHRIS Help Desk can generate Site Reports. The data facilitator is responsible for contacting the Help Desk to request a Site Report.
Workload Report

The Workload Report is based on a set of seven events. This includes the total number of Referral First Contact (First Contact Date), Referral In (Referral In Date), Transition (Part C to Part B Transition Notification Date), Screening (Screening Final Result Date), Evaluation (Final Result Date), Exceptional Student Education Eligibility (ESE Eligibility Date), and Individual Educational Plan/Individualized Family Support Plan (IEP/IFSP Date) events for each school year (see Figure 20).

</tbody>
</table>

The Site report provides a summary of Child Find activities by month and year for the three previous school years. Reports can be generated by center, county, or site. Two types of reports can be generated: Workload and Unduplicated. The Workload report is based on a set of seven events, and the Unduplicated report is based on the total number of children served for instance. If a child was screened twice, the child would count only once in the Unduplicated report, but both screen events would be counted in the Workload report.
Unduplicated Report

The Unduplicated Report is based on the number of children served and contains the total number of children who have a Referral First Contact (First Contact Date), Transition (Part C to Part B Transition Notification Date), Screening (Screening Final Result Date), Evaluation (Final Result Date), Exceptional Student Education Eligibility (ESE Eligibility Date), and Individual Educational Plan/Individualized Family Support Plan (IEP/IFSP Date) event for each school year (see Figure 21).
